

Excel Convert Files From English To Thai and Thai To English Software is a small software application whose purpose is to help you translate Excel documents from English into Thai or vice versa. User-friendly layout The well-organized set of features makes it easier for you to discover and tweak the program's functions. Plus, all dedicated parameters are bundled into a single layout, so altering them proves to be a piece of cake. You may add XLS files in the working environment using the built-in browse button or drag-and-drop support. Additionally, you can load some sample files provided by the tool in order to test its performance. Conversion capabilities The utility gives you the possibility to build up a list with the Excel documents that you want to convert, pick the conversion mode (English into Thai or vice versa), add the content of an entire folder to the list, and clear the workspace with just one click. It is important to mention that the application offers support for batch processing, which means you can add multiple documents and convert them at the same time. Additionally, you are allowed to apply the changes to the active sheet, block of specific cells, as well as entire workbook. Last but not least, you are required to provide your Google API key in order to carry out the conversion process. Performance Since it doesn't require much computer knowledge to work with this program, even less experienced users can learn to master the entire process in no time. Tests have shown that Excel Convert Files From English To Thai and Thai To English Software leaves a minimal footprint on system resources, so the overall performance of the computer is not affected. Bottom line To sum things up, Excel Convert Files From English To Thai and Thai To English Software proves to be a handy piece of software worth having whenever you need to carry out conversion operations.
