car driving simulator is the best way for the adults to get their adrenaline rush. It is not only a fun but also a game that involves a wide range of interesting things which makes it the perfect choice for the kids. You don't need any additional controls to work with the game because all you have to do is to get into the car and drive the wheels right and left to brake and jump and pull the throttle handle and accelerate. All these things are a part of the game. This is a very attractive looking game that displays the real images of the cars and their movements. This is a very simple game but you have to take care of the tracks that you are driving in and make sure that you don't damage them by your car by any means. You have to avoid the objects and the pedestrians on the way to drive as well as jump. There is an example of a driving course where you have to earn the points. You have to drive as far as you can by jumping, collecting the coins and avoiding the obstacles. This can be fulfilled if you get to drive your vehicle in the different modes. You can buy the licenses from the game if you are successful in the challenges and the license allows you to test the game if you wanted to. There is a 3D view that you can look through if you want to. There are 6 different license levels that you can get to in the game and they are: Beginner, Intermediate, Professional, Master, Racing and Expert. You can see the number of the license after your name. If you are a professional driver then you can also download the realistic driving games that display the movements of the car to you. You can also see the gear shift handle to manage the gear shift of the car. You can download the game and play it online for free. The game also has a variety of cars and trucks. The game can provide you with a series of difficulties to drive that are easy, medium or
