## **What's new:**

**- Tarnished** By the time you read this, and however much you crave it, you may already be one of the shadows that will crumble the lands of Rellines. The people you call your own might be falling before you. The Lands Between is divided into two parts: within is a crystalline paradise full of harmony and peace. The second is a bleak shadowland full of death and tragedy. While the good guys struggle to bring the world back together, the enemies hide themselves in the shadows. The power of the Elden Ring has been the most universally respected symbol of good over evil in the lands for generations now. The King's power, the Alliances forged with the other Powers, and the greatest heroes and heroines of Rellines fight and die to protect this meaning. Rellines has long been plagued with the shadows that hide themselves deep within. Those who fail to follow the eternal values accepted by the people are the ones who conspire to threaten the good of the people—they have grown too much and corrupted the people themselves. Those who have taken the side of evil and destroyed the world is your chance to take up the mantle of light, to repair the broken world.
