The new game engine is set to facilitate new ways to play and also create more realistic player collisions, impacts and on-the-ball manoeuvres. In addition to improving player movement, Fifa 22 Product Key introduces a revamped control scheme that will offer an intuitive and responsive experience.

Developers at EA Sports have transformed the famed control system to better adapt to the ways players now move on the pitch. The new approach to the control scheme has evolved over the past three years to enable players the ability to

---

express their playstyle and feel exactly how they move the ball. “We want to continue to evolve FIFA to be more authentic, immersive and help our players be their best on the pitch,” said Alex Casey, FIFA Global Brand Director, EA Sports.

“Introducing HyperMotion Technology is another way we are looking to make the game more immersive and provide players with an authentic experience.” FIFA 22 also features changes to the way the ball accelerates, decelerates, behaves and behaves in the air, along with an updated and improved artificial intelligence. The game has also been

---

enhanced with a new animation system that will bring greater player fidelity, quality and depth to The Journey and My Career modes. As part of the FIFA journey, the game will feature updated and improved tactics. In total, 13 leagues have been updated, including the additions of 11 continental competitions, where clubs compete head-to-head for the UEFA Champions League, UEFA Europa League and UEFA Super Cup. New Clubs, Realistic Visual Impact FIFA 22 introduces Club Alpha. Club Alpha, EA's new club creation tool, allows you to create a custom club in FIFA and change the way players

---

move, how the pitch looks, and how you play. FIFA 22 delivers stunning visuals, including higher resolution textures, enhanced lighting and advanced facial animation systems which add a new layer of realism to players and make them appear more human. FIFA 22 introduces the Dynamic Timing System (DTS) for Pitch Amenities, which updates the surface, including covers, at different times to create a unique feel based on player movement and momentum. FIFA 22 comes with new player kits, new player hairstyles, player-specific player models, improved replays and shows,

---

and many other new touches. FIFA 22, coming to Xbox One, PlayStation 4 and PC, is available now.

### **Features Key:**

- “HyperMotion Technology” – The next-generation AI means players will live an extreme football match like you never before.
- Supports adidas Identity – Create your own club identity in FUT, whether you are looking for a custom FUT kits, men’s and women’s kits or both. FIFA Ultimate Team is loaded with 100s of authentic-looking FUT kits, all ready to load on your Ultimate Team squad. You can even customise the kit on your FIFA Ultimate Team player. Extend and build your FUT following by customising your ultimate trainer and creating standout head-to-toe combinations, kits, and more.
- New Action Skill – Let free kicks be no more when you have the ultimate free kick shot. Scoring a long-range header with a FIFA 22 football is a guaranteed skill shot. As a free kick specialist, execute a long throw then lift a corner to turn the set-piece into a goal. Improved set-up and execution are essential to scoring the last touch. Supports adidas Sport’s Origins
- Dynamic Physic Engine – Impact takes physics to a new level of realism, recognizing what your player is feeling physically and gauging the next move around the back and through the midfield. Every single collision, no matter the size, will look like it could really damage you—right down to cracked ribs, knee cartilage, and the ever-tight hamstring.
- Gliding in Pulisic: Record a freekick into the bottom corner with your right foot then dart around the wall, beat your defender and lash the ball home with your left. Enter Pulisic and Co. by sprinting off the ball and curling an inch-perfect cross into the box. The Pulisic Effect is tangible, and easy to do: leave the ball to the feet of this adidas equipment and a tap in the back of the net, guaranteed. Supports casual, competitive and championship gameplay modes
- Pure PES League Experience.
- Slippery Physics – Sliding through the defender, seeing the ball spin away and then planting it into the back of the net will feel smoother, softer and more realistic than ever before. And sliding in a flash, buzzer-beater or high-speed goal kick will be an awesome new

---

sensation to experience.

The early games were often criticized for being unrealistic, but as the series became increasingly popular, this complaint faded away. EA's FIFA World Cup mode for the original series was the first FIFA tournament to receive a Pro rating by the ESRB, in 1999. The FIFA games have also received numerous awards from gaming publications.
