First of all, you need to download and install a powerful and a trusted antivirus software like Kaspersky anti-virus, Norton Anti-virus or McAfee. 2. Now, download and install ESET Smart Security. 3. Once the installation process is over, click on "Settings" option present on the main dashboard. 4. In the "Settings" menu, select "Protection" option, then click on the "Scan" button located in the menu bar of the Security Center window. 5. Once the ESET Scanner is done, immediately click on the "Scheduled scan" option to schedule a scan. 6. After that, you need to press on "Scan" option again. 7. Click on the "Next" button to start the scan process. 8. After the scan is done, select "EXIT" option from the menu on the top left side of the window. 9. Finally, press on "Restart" option and let the process to complete. 10. Once the restart process is done, you will get a warning message, that "ESET Smart Security is now active.". Just accept the message by clicking on "OK" button. 11. Once the restart process
