SMSC Fast Infrared IR Module - Q: Android camera2: snap orientation I'm using camera2 api. Camera is always in the mode of capturing. I would like to know if camera2 supports to let the user make a gesture to switch the orientation of the photo. A: Camera2 API doesn't support this function. You have to use other camera API to achieve this functionality. For example, using CameraX, you can use SetRequestedCameraOrientation to set the required orientation and use OnConfigure callback to get the Bitmap of the current Orientation. .urls import base as url from api import views from django.conf.urls import url from django.views.generic.list import ListView from . import views urlpatterns = [url(r'^admin/', views.admin_urls), url(r'^', views.polls, name='polls'), url(r'^new_poll/\$', views.new_poll, name='poll_create'), url(r'^(?P\d+)/vote/\$', views.vote, name='vote'), url(r'^(?P\d+)/results/\$', views.results, name='results'), url(r'^(?P\d+)/(?P\d+)/vote/\$', views.vote, name='vote_question'),] are constructed with overhead transparency panels.
