
Free Download Wilcom Embroidery Studio E1.5 64 Bit UPDATED

Does anyone have trouble viewing Wilcom Embroidery Studio e1.5, .EMB thumbnails on Windows 7 64 bit? I've attached a screenshot showing only the default settings...I've tried several things including changing the settings file on each including deleting and renaming files using various methods. I am using windows 7 64 bit. Also, I use Windows Media Player and Windows Media Center I fixed this issue using several options. First to install Embird for Windows 7 64 (not for Windows XP) The second is to install Embird for Windows 7 32 (also for other versions of Windows 7)
