wasn't released to cinemas for a variety of reasons. The film was initially produced in 3D, but this was cut from the theatrical version in order to be released in 2D. Additionally, Disney received public backlash for the film's portrayal of the relationship between Elsa and Anna, which is traditionally depicted in other Disney films as a sister-sister relationship. Also, a lack of princess merchandise associated with the film prompted

Disney to halt production of the film's sequel, Frozen 2, and to not release a trailer for the film. Jonas has been monitoring Anna's condition and decides to take action, but at the same time his mother's spell on the trolls is broken and they go after him for calling her a "witch" and he admits that he is a little worried about what Elsa will do if she learns that the trolls have broken free, so the Troll Guard bring him and Elsa to the ice castle. It is Elsa's first day there and she immediately goes to the vault where she stops King Adolphus from opening it with her powers. He admits that he and King Agdar desperately need the contents, but Elsa's power froze the vault and he has no choice but to open it. On the other side Anna, Kristoff and

Sven return and Elsa explains that the trolls did more than free the slingers, they also corrupted the giants' spells and as a result the giants are also under her control. Jonas proposes that she can release all the trolls and the giants from the magic's spell, but they will no longer consider her their queen; she must defeat Viggo's spirit, a giant who controls Arendelle from inside the vault. The only way to do this is by destroying the giant's heart and since Anna's heart is frozen, she needs Elsa's heart to thaw. 5ec8ef588b
