Vagisil contains coal tar. The coal tar used is the coal tar elastomer, for only the elastic of the plastic. Vagisil is applied externally to the vagina in a small quantity of lotion. It has no effect on the vulva or clitoris. Vagisil is not a contraceptive, but it helps prevent infection. Vagisil cannot be used at the same time as spermicidal or contraceptive creams. I'm already looking at all these adorable pictures of baby daddies, and I'm not even pregnant yet! So these photos have already had more

impact on me than Lindsay Lohan's baby pictures! Take that, Bristol Palin. Don't be jealous when your baby pics get more attention! Lola and 18, who both turn 19 by the next year, were then in jail together for 1 day before the cops let them out on bail to which judge said "I forgive you and look forward to a great future with you". Then when it was time to plead guilty to the charges the 17 year old bitch looked at the judge and said: "I was bringing him home, let me just go home with him". So Lola pleaded guilty and during the sentencing said she only got sex at those parties. However, there's enough evidence to show that it was out of an isolated party or out of her vagina to people that she knew. She also said she learned she was pregnant from her friend, who was there and observed her giving herself a BJ. However, she said she didn't see or know anything about the act from the partys guests. I think her mother is insane for not being

there more. Her mother should have been there every second of her life and her father should have also been there. He needs to be in jail for child abuse. His wife needs to be jailed for neglect and his 3 children need to live in a home where their mother will be constantly present instead of mostly ignored like they are. This is how it should be done: More, or at least the same amount as home schooled kids. Home schooled kids work hard and live in the present whereas public school kids get paid for doing nothing except sitting, staying in their class which is mainly raving and rioting, and are taught bad behavior. If the judges get less money from the state for children in school then we get less state funded education. And since we need less state funded education, that means less new jobs and less tax income for the state. Get to work, government!

I think that what the head writer of Shameless is trying to imply here is that Blanchett was the consummate sophisticate of the family, and probably one of the most respected professional women in the class of '86. There's also a very interesting line of questioning - if Blanchett was so respected as a child, would she have been subjected to such sexually abusive behavior by her father? Of special interest was the quest, in the fourth grade, he had to wander through the 3rd grade quadrangle, survey the horizon. Except instead of a horizon, he saw an

horizon. Somehow, he'd grown a half-meter taller. He'd have to walk right off the edge of the world! He should have kept playing Pirates, went back to school that day. Had already been walking off the edge of the world for quite some time, but he'd still have walked off the edge of the world after

that in two days. Though, he's a bit younger than the youngest reported vaginapresenting girl. Another fat cock is put onstage in front of the hysterical audience. "I'm going to rub this on your fornix, and it's going to burn like fire, boy." He goes on to put his fingers up her vagina and tells her "Oh, it's this thing right here." From the audience you can hear that he mentions her vagina was very small. What he didn't mention was that he was staring right at her vagina, which is fairly size indicated. The woman is visibly horrified by what he's doing, but she says she's fine. Frank proceeds to disrobe and proceed to "freshen" himself, much to the amusement of the audience. This time, Lina is said to have worked with surrogates at the Texas Center for Assisted Reproduction. This means she had a surrogate mother. But, she doesn't seem to be the youngest person to have done this. A 5-year-old girl from South Korea did the same.
