I'm not sure why you keep using it..." I understand that this question may seem a little trite and redundant, I have already asked it many times and even tried to find an answer. But he didn't come. I want to use the "Breadcrumbs" plugin which is written in Flex4 or Flex 5. It's not possible in Flex4, but it's possible in Flex5. I wrote a few lines of code to make this possible, but I'm not sure if I did it right. dd2bc28256
